English Language Arts School Supply Lists Grades 6/7/8

During our **Reading Workshops**, students will be exposed to direct instruction and modeling of reading strategies in order to improve comprehension and motivate them to read more often. It is vital that students have an independent reading book with them every day. Our **Writing Workshops** consist of direct instruction and modeling which will motivate students to improve their writing skills. Our curriculum prepares students for the annual New York State English Language Arts Exam. In order for your child to make strides in reading and writing, he/she will be **required to read 25 books for the school year**. This averages to about six books per marking period. **Each child is required to read a minimum of thirty minutes per night.**

Sincerely,
Dr. VanDorn and the ELA Department
