Health Screening for DOE Buildings

In alignment with NYS Department of Health guidance, a health screening (including temperature checks) must be completed by all students, staff, and visitors before entering DOE school facilities--preferably at home. This health screening must be completed each day.

School-based staff, visitors, and families **cannot** enter the building if they have:

- (a) experienced any symptoms of COVID-19, including a fever of 100.0°F or greater, a new cough, new loss of taste or smell or shortness of breath, within the past 10 days;
- (b) in the past 10 days, gotten a positive result from a COVID-19 test that tested saliva or used a nose or throat swab;
- (c) to the best of their knowledge, in the past 14 days, been in close contact (within 6 feet for at least 10 minutes) with anyone who tested positive for COVID-19 or who has or had symptoms of COVID-19; and/or traveled internationally or from a state with widespread community transmission of COVID-19 per the [New York State Travel Advisory \(https://coronavirus.health.ny.gov/covid-19-travel-advisory \)](https://coronavirus.health.ny.gov/covid-19-travel-advisory) in the past 14 days.

Complete the Health Screening Online prior to entering and enter either by showing the email on your phone or a printout of the results. The online health screening application can be found at: <https://healthscreening.schools.nyc/> or scan the QR code below.

You may also complete an in-person assessment at the building. Temperature checks are performed at random at school buildings
